

FlexCore Bollard

Innovation disguised as simplicity.

FlexCore Bollard is stronger than steel plate bollards and easier on your equipment and people. No more holes to dig, concrete to pour or pipes to paint, the FlexCore Bollard installs in a fraction of the time and at much lower cost, without sacrificing strength.

Energy Absorbing Design Impact forces are directed into the concrete

Rotating HDPE Shell Exclusive shell design rotates with sideswiping hits

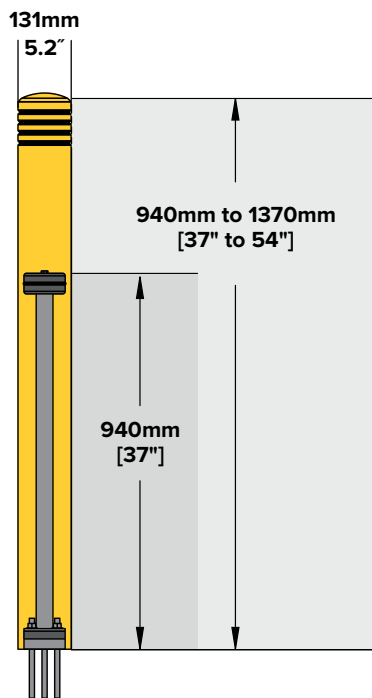

Quick Installation Installs fast, protects for years

FlexCore Bollard

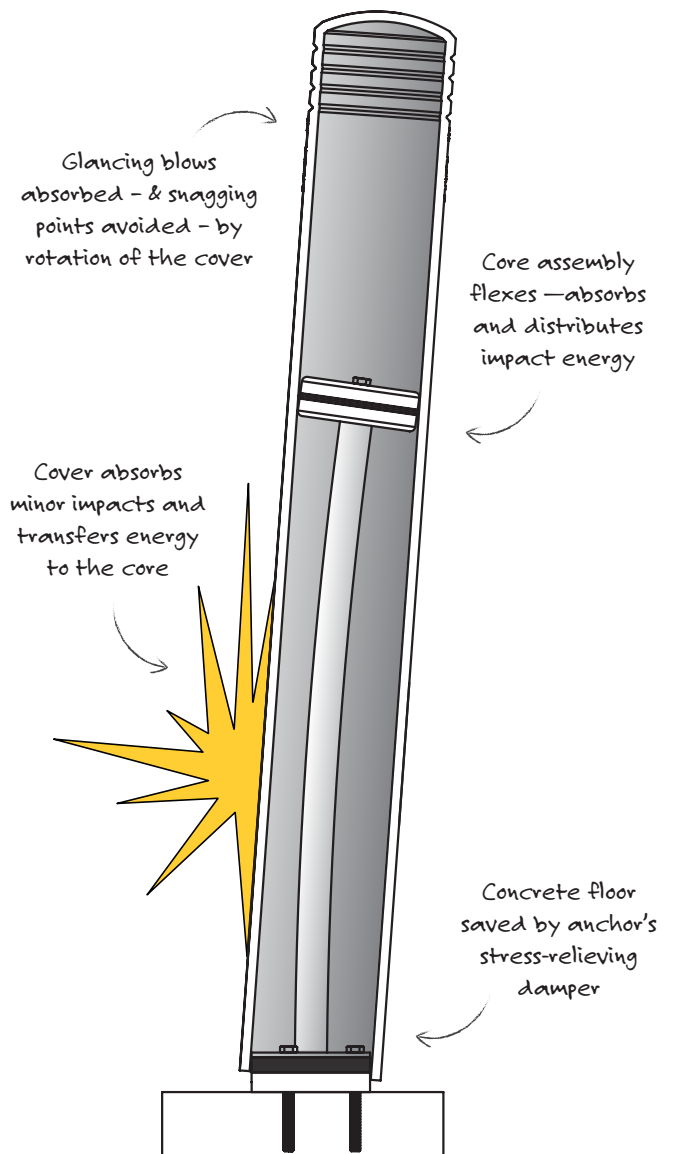

Size Specification Options:

FlexCore 4
FB-K-004-307

How It Works:

Features & Benefits:

**Rotating
HDPE Cover**

**Shock-Absorbing
Load Ring**

**High Tensile
Steel Core**

**Hardware Prevents
Concrete Failure**

U.S. Patent: 7,901,156
